PROFESSIONAL SUMMARY

Business Analyst and Data & BI Consultant with 10+ years of experience across finance, insurance, entertainment, technology consulting, retail and industrial automation. I bridge business needs, data and technology to improve processes, define KPIs and business rules, and deliver solutions that support better decisions. Experienced in requirements gathering, functional analysis, user stories, stakeholder management, process improvement, project delivery and Agile environments, with hands-on expertise in Power BI, SQL, Power Automate and data modeling.

PROFESSIONAL EXPERIENCE

GEPROM CONNECTING INDUSTRIES (Telefónica Tech) | Barcelona, Spain

Data Consultant | Business Analysis & Process Automation 04/2026 – present

- Designed and implemented a preventive project control system for ~300 open projects, translating business requirements into rules, KPIs and automated alerts using Business Central, Power BI and Power Automate.
- Defined business rules with project managers for cost, hours and billing milestones, including cost ≥85% of budget, hours above plan and +20% as critical, and due or overdue billing milestones.
- Automated 4 alert types and configured targeted notifications so each manager received only the projects requiring attention.
- Designed a weekly leadership report covering new projects and year-to-date orders, margin and costs by division.
- Supported the GLPI rollout to centralize internal software and data requests, handling approximately 164 monthly tickets and improving traceability.

CHARLY THERAPY | Barcelona, Spain

Product Data Analyst 04/2025 – 03/2026

- Built a stock and operations control system in Excel using Power Query, Power Pivot and macros, combining sales, stock, product and store data across 10 stores and B2B / B2C channels.
- Identified ~1.9 years of stock coverage and high catalog concentration: 96 of 751 SKUs generated 50% of monthly unit sales, while 153 SKUs sold 2 units or fewer.
- Redesigned purchasing analysis using sales velocity, stock-outs and channel mix, selecting 45 SKUs for the next purchasing cycle.
- Consolidated 100K+ monthly POS records to analyze store operations and identify changes in channel performance, including B2B +49%, B2C +105% and stores +16%.
- Developed business rules and decision criteria to support purchasing, stock allocation and store operations.

ANTICIMEX | Barcelona, Spain

Data Analyst 03/2024 – 03/2025

- Built CRM data pipelines in Azure Dataflows with data quality checks and optimized SQL queries for high-volume datasets.
- Built a centralized Power BI data model integrating budgets, quotes and targets, with DAX measures for YTD, budget vs. actual and quote acceptance rate.
- Created CRM and commercial dashboards by sales representative, region and product line; demand analysis supported the reallocation of call-center staff.
- Automated report generation and distribution with Power Automate and built Power Apps to capture operational data, replacing manual Excel reconciliations.

K-LAGAN – Client: AXA PARTNERS | Barcelona, Spain

Business Analyst 07/2022 – 02/2024

- Led requirements gathering with 20+ stakeholders across E-commerce, Commercial Excellence and Home & Auto insurance lines in Spain, UK, France, Italy and global teams.
- Translated commercial needs into KPIs, business rules, User Stories, Acceptance Criteria and mockups in Azure DevOps within Scrum environments.
- Defined KPIs and Salesforce CRM fields with data engineers, designed star-schema data models and validated data with SQL and Excel across a Data Lake → Datamart → Power BI pipeline.
- Delivered 2 commercial performance solutions for the Global Product Owner, increasing available reporting by 33% and replacing a manual reporting process that could take around 5 days with automated refreshes.

PARADIGMA DIGITAL | Spain

Project Manager – Senior Consultant 06/2020 – 06/2022

- Managed business-IT projects end to end for banking and retail clients, gathering requirements and controlling budget, scope, timelines and deliverables.
- Centralized accounting data covering supplier payments, procurement, stock and finance, and defined Power BI dashboards for budget tracking and executive reporting for the Controlling department.

WARNER BROS & FOX FILM ARGENTINA | Argentina

Senior Business & Finance Analyst 08/2017 – 05/2020

- Led the SAP FI migration for indirect taxes and the Oracle-to-SAP data migration during the company merger, ensuring data integrity and compliance.
- Built financial reporting and KPIs covering film performance, cash flow and profitability by distribution channel for management, sales and finance.

CHUBB SEGUROS | Argentina

Financial Analyst | Promoted from Administrative Assistant in 2012 04/2012 – 04/2017

- Produced financial reports to monitor business performance and supported data migration activities during the company merger.
- Worked with finance and operational teams on reporting, data validation and administrative processes.
